

# Education access

Due to the Coronavirus Pandemic, we will not be conducting an in-person Licensure Review Course at this time. However, we do have study materials available to purchase for anyone who is preparing for the State and National Tests. You may select to purchase printed manuals shipped via USPS or digital copies of the manuals sent via email. Purchasers will also receive supplementary readings and practice exams by email from the course instructor, John Cirn. Please complete the information below along with your payment and return to the address below. Once your order is received, your study materials will be sent out within a week.

**Please place a "✓" in the box next to the study materials you are ordering.**

	Member Price	Non-Member Price
