CMS Requirements of Participation Phase 3 Webinar Series **Understanding the Updated Guidance**

On June 29, 2022, the Centers for Medicare and Medicaid Services (CMS) released Updated Guidance for Nursing Home Resident Health and Safety as part of the Requirements for Participation (ROP) Phases 2 and 3 that went into effect on October 24, 2022.

In order to assist facilities in understanding these updates, IHCA, in partnership with Transitional Care Management, is hosting a series of webinars in the coming months. This training series will review the updated guidance and best practices, as well as resources that participants will be able to take back to their facilities to train staff and put appropriate changes into action.

Flexible training to meet your needs! This webinar series offers more than 12 hours of training. Sessions are being held virtually, and will also be made available on the IHCA Education Access Virtual Learning Platform (more information to come). Registrants can choose to sign up for individual sessions (\$100 per session), or register for the entire series and save \$50!
