August 14, 2017

**Q:** Wanted to check with you on Medicaid reimbursement surveys. Are they continuing to occur and if they are—is there any info out there on the surveys?

**A:** Yes. They are ongoing. They are written into statute and rule, and will continue going forward as any system allowing for frequent rate change needs to have oversight. They are not regularly scheduled, HFS selects them based off of an internal decision making process, and we nor providers have any idea who will be selected for them in a given quarter. DHFS does between 12 -20 each quarter.
